

A few pointers for using the My Lists feature in Enterprise...

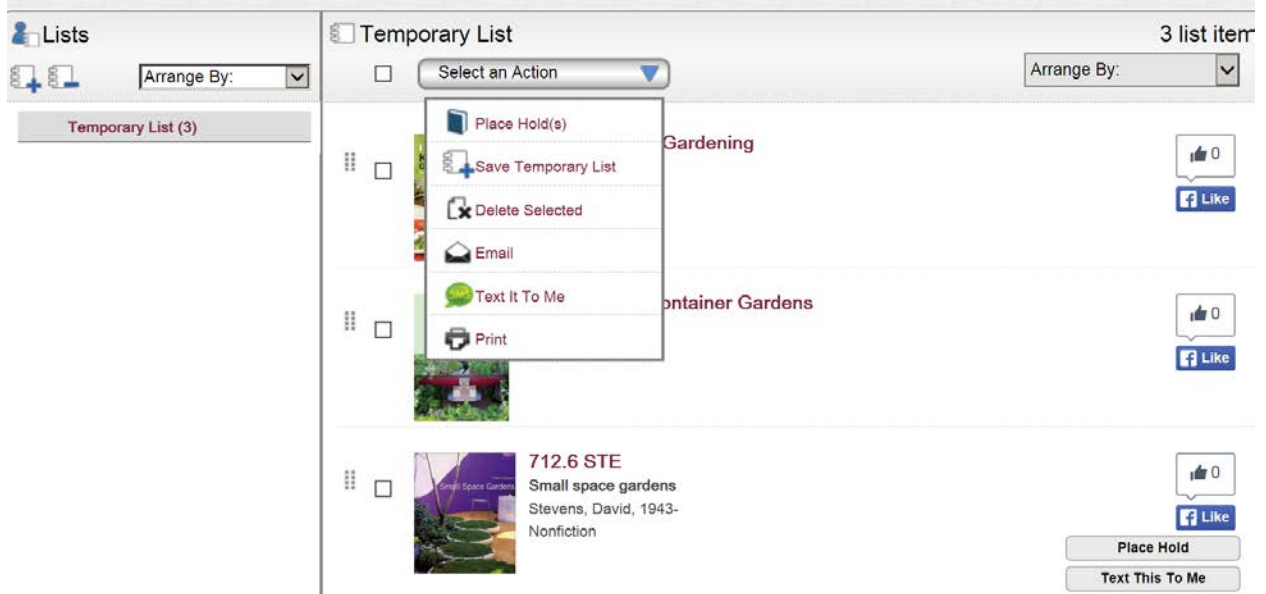

On the home page of Enterprise to the right-hand side of the screen, you can see “My Lists”. After you log into your account, this is where your lists will be stored:

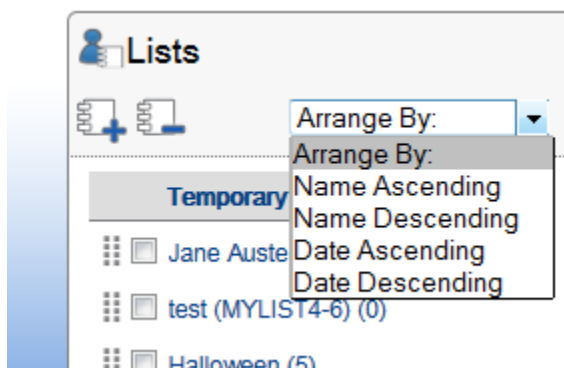

You have the option to create lists by clicking on “Select an Action”, and choosing Add to My Lists. You will need to CHECK MARK next to the title(s) you are interested in adding to the list:

Log into your account to access your lists:

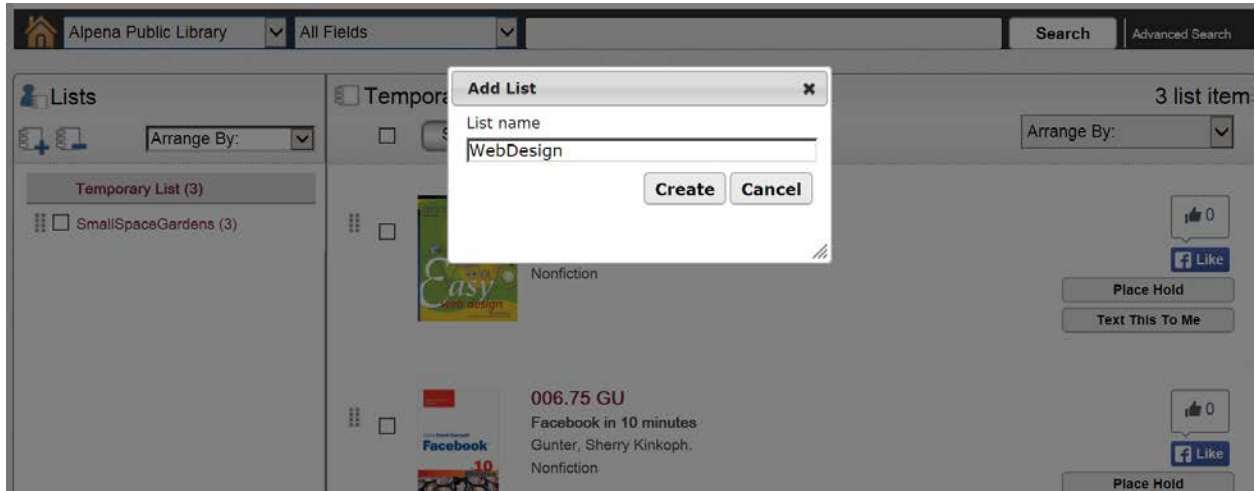

Click on any list in the left-hand column (if you have more than one) to bring up that list: You can also place a hold on any items in your list.

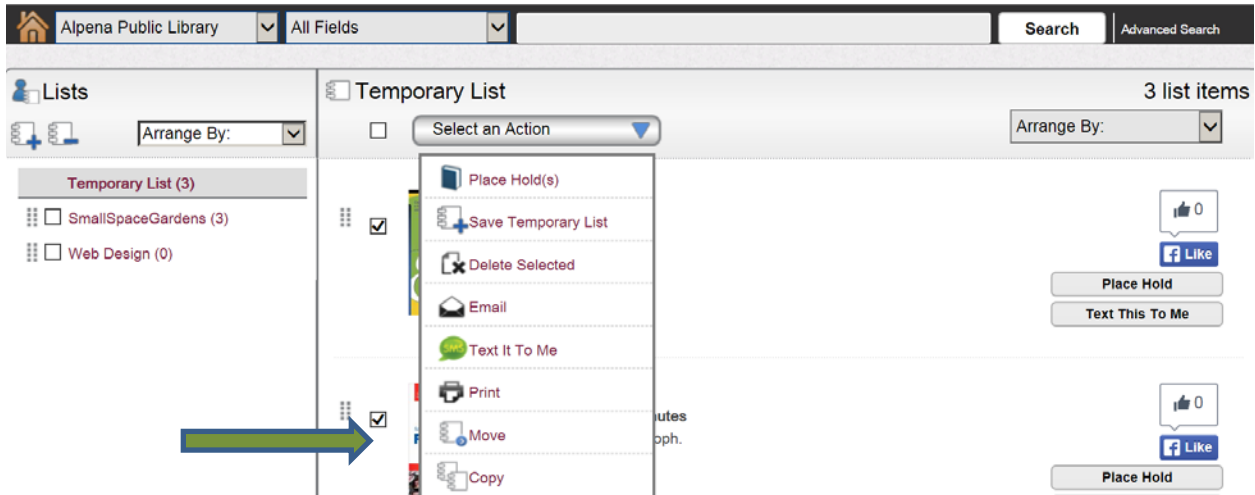

Add/Delete lists with these + / - helpers.

To add a list, you'll just need to name it:

MOVE your selections from the "Temporary List" to your new list:

These are just a few suggestions for using the My Lists feature in Enterprise.
