

Enterprise and eResource Central FAQs

WHAT IS ENTERPRISE? - Enterprise is a “discovery layer” for our database that uses fuzzy logic, faceted search limits, and other strategies to greatly improve the search experience for patrons in the library online catalog. In addition to searching the libraries physical collections, Enterprise can also be configured to search databases, OverDrive, and other resources.

Enterprise and eResource Central FAQs

WHAT IS ERC? - eResource Central allows us to “sync” our digital subscriptions with Enterprise. Patrons and staff can search both the digital collection and the physical collection at the same time. Additionally, patrons can see if the items in the digital collection are available and check them out right from Enterprise. A hold may be placed on items that are not available, and all of this can be accomplished without having to go to another library’s website.

The screenshot shows a search results page for the book "The Immortal Life of Henrietta Lacks" by Skloot, Rebecca. The search criteria are "Digital Catalog", "All Fields", and "immortal life". There are 11 results found. The first result is an eAudiobook (Windows Media Audio, MP3) with 0 available copies. The second result is an eBook (Adobe EPUB, HTML, Kindle) with 1 available copy. The eBook result has buttons for "Preview" and "Download" highlighted with a red box. The audiobook result has buttons for "Preview" and "Place Hold" highlighted with a red box. The page also includes filters for Author, Subject, and Publication Date.

Digital items appear with availability information from OverDrive or other vendor, items can be downloaded from Enterprise with ONE login. Previews of audio and eBooks are also available. Digital checkouts and holds appear in the Enterprise My Account.

The screenshot shows the "My Account" page in Enterprise. The user's status is "DELINQUENT". The page displays a list of digital checkouts with the following details:
